## PROGRAMME PROPOSED TO JAMAICAN MINISTRY OF SPORT AND CULTURE

Expand the practice of urban sports in Jamaica

- **Help to prepare the best Jamaican riders** for the next three Olympics summer games
- **Building skateparks** possibly in several parishes, public skateparks, high level training and leisure
- **Reveal the talents of tomorrow:** *interacting with schools, events, spots, skate schools, clubs*
- **Skate and studies** : *School yards initiations, schools sports programs, detection of talents*
- **Bringing instructors** to transmit their knowledge to Jamaicans
- **Create a diploma system** for teaching and coaching ensuring maximum security as is done in France
- **Allow every young Jamaican rich or poor** to be a part of this community

All being able to practice in decent skateparks , having a chance for some of them to become part of the Jamaican sport history, representing Jamaica, traveling across the world, given a positive example of 'possible success', succeeding to make a living, being able to live from one's passion.

## work areas

**-BUILDING SKATEPARKS**

*#essential #mandatory*

**-PREPARING OLYMPICS**

*#high level sport #detection*

**-SKATE AS A SOCIAL TOOL**

*#Education #Preventing crime #mixture*

**-TEACHING, TRAINING, COACHING**

*#transmission #construction*

1/ **Building proper skateparks:** for proper training for strong athletes progression

Call for volunteers, bringing good expert builders, help of government to keep the skateparks public and not only in private hands or worse.

2/ **Helping Jamaican riders to step up** toward **high level sport**, building a training program on several years between France and Jamaica from 2020 to 2028 (Paris 2024), exchanges between our 2 countries, setting up a big pro-contest in J.A every year with a music Festival.

3/ **Skate as a SOCIAL TOOL:** skate in schools, push the ones who are skilled and make sure that meanwhile they're going to school and support them with sport and studies. If they keep their word, they are rewarded with more training and the good skateboard gears they need. We named that program #Eduskateme. We have already started it with one student Daniel Mattis, at Donald Quarrie High School in Harbour View. That 's only one example of what we can achieve.

4/ **The teaching part.** Encouraging the creation of skate-schools and creation of instructors jobs. Bringing experimented teachers here to train and share their experience with Jamaicans who are interested in becoming skateboard teachers, trainers or coaches.

### **CURRENT SITUATION: No real skatepark in Jamaica**

-JAMNESIA very small concrete pool - the only concrete bowl for years

-A private **Mini ramp** in Ochi 2019

-**Gully project** : St Thomas carried by Jamnesia crew is a perfect example of what we could build for small amount and use unused places to give them a second life for the betterment of the community.

### **PROJECTS in progress**

- Bull bay skatepark : Estimation US \$100,000 - Kevin S. Bourke & Flipping Youth

-Steve Douglas **PALACE Skateshop** / 1 project in progress...2300 m2 trench town US \$700 000

-Bowl already dug in UWI / Kingston by **Ignite Extreme Sports Club** - on hold

-Treasure Beach sport park skatepark - **BREDS Foundation** / Paris Skate Culture

-Proposal for a new equipment in Port Antonio - **Paris Skate Culture**

- Interest in Montego Bay SUM Festival and Oracabessa James Bond Beach

Spoke about future of skateboarding and BMX for next Olympic games 2020 & 2024

### **PARTNERSHIP - A 'France Jamaica foundation'**

**What I'm proposing is a partnership** with the Jamaican government and with the French Embassy, allowing a kind of twinning to set up a **high level training program** that will benefit our two countries. To realize this program I am committed to spend few months here each year to put the program in place and follow the developments. The Internet also allows me to check on progress while overseas. These exchanges will benefit all the skaters involved and will develop their experience and self-confidence by training the best riders of the island, and preparing the future coaches and teachers of Jamaica. For the French participants they will improve their skill and understanding of different styles from these trips and will also grow from this blend of culture. The Jamaican athletes will become familiar with Paris and when 2024 comes they will be comfortable there as they will have an advantage, knowing the city and the local scene. To achieve this goal, I'm looking for a land right now to have a place to develop these actions with a several years perspective. I want to set a non-profit organization, like a foundation '**Jamaica Skate Culture**' with foreigners and Jamaicans, to be able to raise some funds to put this plan into action. It will also include, education **#eduskateme**, street art, music, cultural interactions between our two countries with the organizations and individuals willing to play. For myself I'm ready to work for Jamaica and for Jamaican youth street sports improvement ...RW
